Litek | Heritage

Litek | Sport

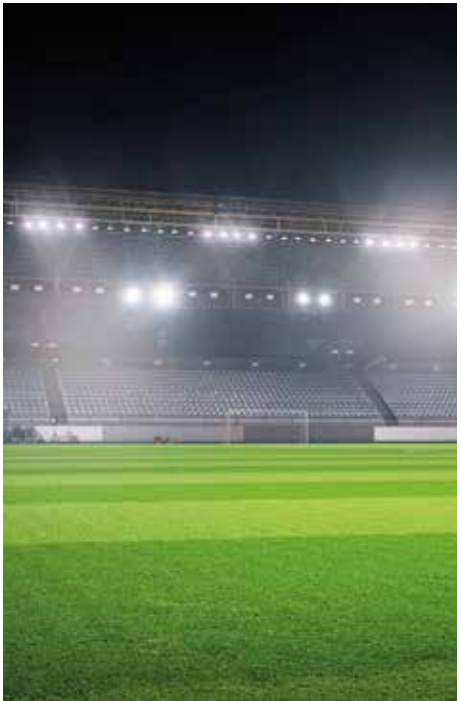

Functional urban lighting for exteriors and large areas as: roads, street furniture, squares, cycle and pedestrian paths, tunnels, ports and airports, etc.

Architectural lighting fixtures for outdoor spaces, floodlights, recessed lights, and elements, capable of enhancing shapes, materials and atmospheres with elegance and functionality.

Luxury decorative indoor lighting, unique objects also on request that combine art and light, designed for exclusive environments such as hotels, resorts, villas and iconic spaces.

Urban Renaissance is the program through which Litek enhances prestigious historic centers. With over 260 projects completed worldwide, including 12 UNESCO World Heritage sites, among these Venice, it is now the global reference program in the sector.

High-performance lighting for sports fields, live events, and large venues dedicated to entertainment. Technical support and management services.

OUR STORY IS A JOURNEY OF CONSTANT GROWTH.

Litek illuminated the first two LED roundabouts in Italy, located in the provinces of Venice and Rimini.

After four years of preparation, Litek illuminated Venice with the largest redevelopment project ever undertaken before. Over 10,000 customized LED systems restored light to the city's historic fixtures, a UNESCO World Heritage site, combining innovation and tradition.

Litek illuminates the UNESCO heritage sites of Guanajuato and San Miguel de Allende, in addition to Copenhagen and some projects in Mexico City.

The FULGOR project is born, the fourth generation of street lighting fixtures with three power sizes and unique technical characteristics.

The patented FULGOR NLC (no limit connection) system reduces costs and improves the aesthetics of SMART remotely controlled fixtures.

Litek supplied LED fixtures for the Cairo Monorail project in Egypt.

Litek begins its presence in Saudi Arabia.

Litek launches the LITEK ARCHITECT division, the new architectural division for exteriors.

New optical units with LED efficiencies >220lm/W.

In 2006, the development of the first LED street lighting fixture, the Pro series, led to the founding of the company Litek Srl in January 2007, the first Italian company exclusively dedicated to the use of this technology for street lighting.

Start of commercial activities and implementation of projects in Germany and Portugal.

With the "Modulo Universale" (Universal Module) series, Litek launches the "Urban Renaissance" program, making certified LED modules independent and adaptable to almost all existing fixtures, both historic and modern. To date, the program has illuminated 12 UNESCO sites and over 260 historic centers worldwide.

From 2016 to 2018, Litek supplied 112,000 lighting fixtures for many projects including Bologna, Naples airport, many 'Consip Luce 3' projects such as Piacenza, Cremona, Cesenatico, and others.

Litek produces 26,000 lighting fixtures for the CMVS project in northern Italy.

Litek has once again been awarded the contract to supply LED systems for Venice, confirming the success of the first installation in 2012.

Litek becomes a qualified/ approved company by GECOL in Libya.

Litek Srl becomes Litek Group Srl and premieres FULGEMI at Euroluce in Milan.

Launch of the new range of IMAST giga-projectors for sports, tunnels, ports, airports, large outdoor and industrial areas.

2026

WHAT LITEK OFFERS TO THE LIGHTING MARKET TODAY.

Great skills and even customized solutions, designing solutions that are suitable and adapted to the specific needs of each project.

The much-anticipated new brand Fulgemi Luxury Lighting is born. Custom luxury decorative lighting for interiors, resorts, hotels, villas, and special on-demand applications. Fulgemi debuts on the market at the Euroluce 2025 international lighting fair in Milan

The production of the new series of giga-projectors IMAST-Sport, IMAST-Outdoor, IMAST-Industrial, and IMAST-Tunnel begins, offering top performance for sports fields, stadiums, airports, ports, tunnels, motorways, and large areas.

For 2026, Litek Group Srl launches the Litek Architect division for the architectural lighting of buildings and external environments.

Litek becomes Litek Group Srl, with three product brands: Litek Lighting, Litek Architect, Litek Fulgemi, and two division brands: Litek Heritage and Litek Sport. Synergistic and complementary to each other.

ILLUMINATING SPACES, ENHANCING PROJECTS: THE STRENGTH OF OUR EXPERIENCE.

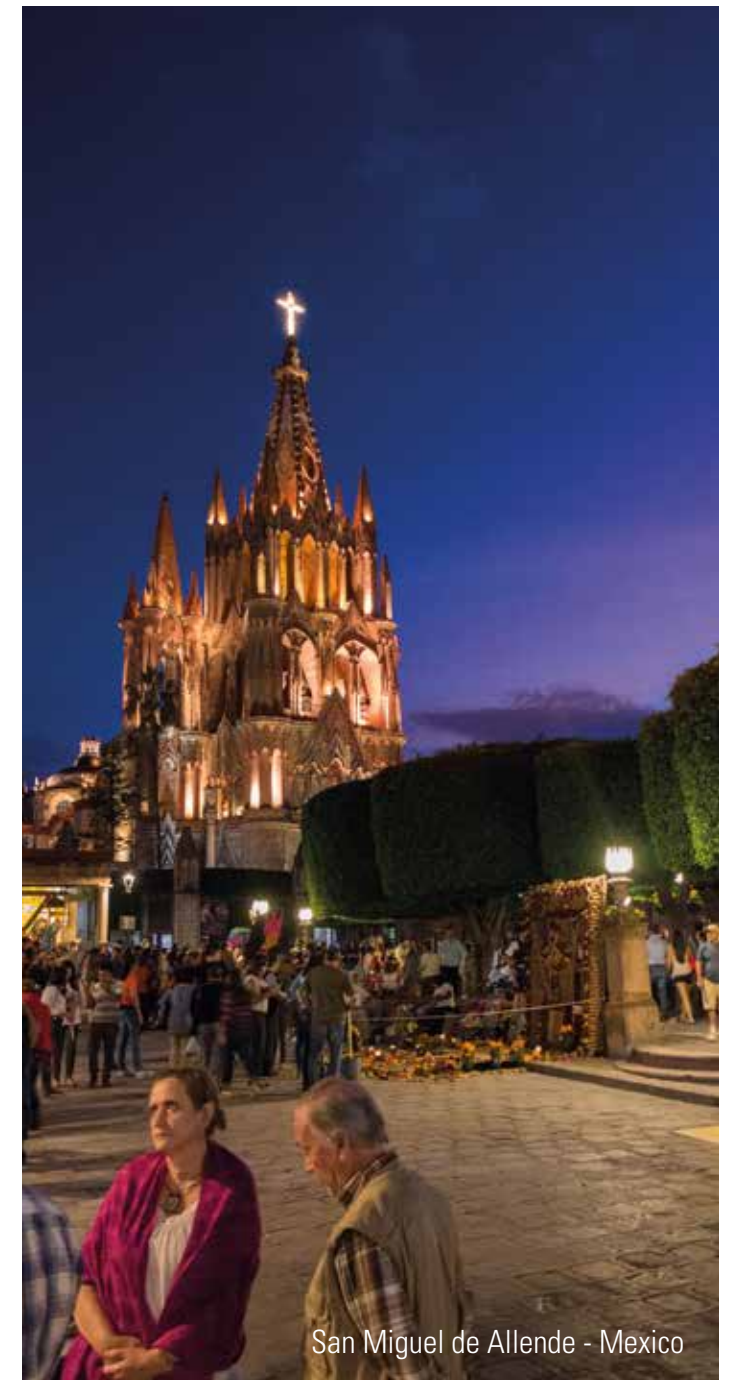

From 2007 to the present day, Litek Group has marked time and space by creating and redeveloping over 260 projects worldwide, including 12 UNESCO World Heritage sites.
